

the apollo challenge

New Energy, New Jobs, New Independence for America

Not so long ago, **President John Kennedy** challenged our nation to accomplish what seemed impossible—to send a man to the moon and return him safely to earth in just ten years.

Inspired by the "can do" spirit of the Apollo moon launch, the Apollo Alliance asks for your help to **challenge our nation's leaders to achieve energy independence within a decade.**

Yes! I pledge to challenge our country's leaders to empower America—within the decade—to:

- Kick the oil habit.
- Harness clean, homegrown energy sources.
- Save energy with high-performance buildings & cities.
- Create 3 million good, clean energy jobs.
